

FOR IMMEDIATE RELEASE

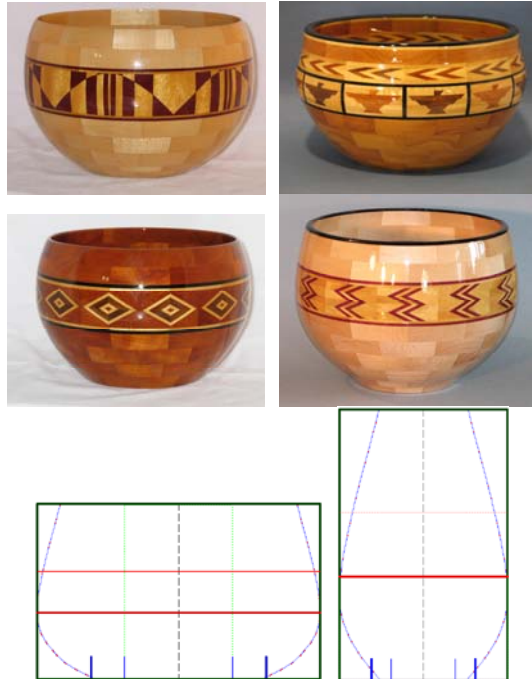

Segmented Project Planner Improves Design Support!

SPP version 2.7

Arroyo Grande, CA – January 22, 2009 –SegmentedTurning.com announces another set of improvements in its newest release of its software design tool for segmented wood turners.

Specifically included are:

- Microsoft design guidelines have been incorporated for compatibility with both XP and Vista operating systems.
- A Design Assistant has been added which provides visual cues for creating shapes conforming to the Golden Mean.
- New Shape Report provides outer shape dimensions to support exact turning of both segmented and monolithic projects.
- Numerous small error fixes affecting Sketch-A-Bowl, Sketch Pad, ZigZag and Diamond designers.

According to Bill Kandler, creator of the software and an accomplished segmented turner, “These changes will make the Segmented Project Planner fit better within the Microsoft Vista vision and significantly improve a user’s ability to easily create successful project shapes.”

As always, this new release is free to existing program customers via a download from our web site (<http://www.segmentedturning.com/upgrdspp.exe>) and pricing remains at \$39.95 for the installation CD.
