FOR IMMEDIATE RELEASE

Segmented Project Planner Gets Stronger!
SPP version 3.3

Arroyo Grande, CA – June 1, 2013 –SegmentedTurning.com announces another set of improvements in its newest release of its software design tool for segmented wood turners.

Specifically included are:

- Restructured segmented project logic into object oriented design to separate code used to manipulate project information from code involved with display and human interface to provide a more robust program.
- Added access to construction videos and several videos on how to use features of the Segmented Project Planner
- Modified printer activities to query printer for available page width and height at report setup time to allow users to use paper other than 8.5 x 11.
- All program dialogs, including plug-in designers, modified to support form resizing for easier reading.

According to Bill Kandler, creator of the software and an accomplished segmented turner, "These changes are another step in improving the useability of the Segmented Project Planner."

As always, this new release is free to existing program customers via a download from our web site (http://www.segmentedturning.com/upgrdspp.exe) and pricing is $40.95 for the installation CD. Downloaded pricing remains at $36.95
